VOLUME 15—NUMBER 52

Recent Operations

By Paul Rardin

March 24th is the date set for our special edition to be published. Already we are busy preparing material for it. Many prominent names have been down and there remains much more work to do. We have requested the heads of civic organizations to send in a history of their group in order that the world may know of your great achievements in this vast agricultural empire. We have heard from some of those to whom we wrote—and others haven't acknowledged our letter. So, if your organization isn't publicized—don't blame us.

The forthcoming edition will contain much informative reading matter of interest to local residents and tourists who live or have lived in different climates. For the benefit of those who desire to mail an extra copy to some friends—we're going to maintain a mailing department here in the office. They will mail a copy of the special edition to any town in the U.S.

The contractor on a resurfacing of the highway between Canal Point and Twenty Mile Bend finished the job Tuesday afternoon of this week. The equipment has been moved to another job. And the Lake Region has a new section of roadway between Canal Point and the East Coast. Residents of this area are grateful to the State Highway Department and its representative in this area—Brooks Bateman—for this fine piece of work.

During the past week only 40 carloads of vegetables have moved from the Lake Okeechobee farming region. The same week last year saw 222 cars headed northward. The prices are about the same that they were last year, but my friends say that we mediate why business is slow with some of our merchants.

GRADERS VISIT THE SUGAR MILL

A total of 145 pupils from the fifth through eighth grades in Belle Glade schools were escorted through the giant Clewiston mill of the United States Sugar Corporation Thursday morning.

Five special trucks carried the students to and from the mill while special guides escorted the group through the extensive Clewiston plant. The trip, an educational one, was sponsored by sugar corporation which provides the students with a first hand source of information for an essay contest to be sponsored shortly. H. O. Caldwell, South Bay, is chairman of the competition.

The educational efforts of the Limerock Association will be carried on throughout the year, Mr. Thrasher said. The most important part of the program is the news advertising campaign which will appear in nearly 100 daily and weekly newspapers in Florida.

"Through newspapers we can reach every citizen of Florida who works in agriculture and in general. Every forward-looking Floridian should be eager to place the expenditure of tax-dollars for highways on the most economical and most efficient basis. We want all such citizens to know of the economy advantages of Limerock," Mr. Thrasher explained.

Funeral services were held Tuesday afternoon at the Pahokee Methodist church for Henry S. Lovett, who died suddenly Sunday afternoon. Rev. Fred L. Martin officiated. The casket, during the service, and funeral arrangements were in charge of J. C. Berry. Burial was made in Fort Mayaca cemetery. He is survived by his wife and child in Limerock.

Mr. Lovett, operator of Lovett's Service Station in Pahokee, had been ill health for several weeks but his condition was not considered serious. However, on Sunday his condition became considerably worse and he was taken to the Everglades Memorial hospital where he died a short time later. His sudden death came as a disappointment to his friends and relatives in the Limerock area.

Out of town relatives who attended the funeral services were: Mrs. J. F. Lovett and Mr. and Mrs. W. E. Lovett, of Miami; Mr. and Mrs. H. C. Lovett, of Limerock; Mr. and Mrs. M. T. Swift, Perry, Fla.; Miss Margaret Miller, Miami; Mr. J. G. Nesbit, Greensboro, N.C.; Mr. and Mrs. M. T. Lovett, of Limerock; Mr. and Mrs. W. E. Lovett, Tuckers, Fla.; Mrs. and Mrs. E. Jones, Lake Worth; Mrs. M. Irvin and daughter and Mrs. Stevens, Orlando.

Shipments Slack During Week, Still Ahead Of Last Year

Only 40 Cars Out This Week To Northern Markets

Slightly more than five times as many carloads of vegetables were shipped from the Lake section one year ago than were shipped out over FEC railroad tracks during the past week. Exactly 222 carloads were shipped during the week of 1938 corresponding to the past week of this year. Only 40 carloads found markets in the North during the past week.

That's the basic story, tell a different story. Nearly 300 carloads more have been shipped from the Glades growing section this year than last. The season total for last year stands at 2665 while this year's figure at this time stands 2265.

Of the meager 40 cars shipped out this week, celery commanded first place in the list with an even dozen. Celery was followed by beans, radishes, carrots next with 6 and radishes next with 8. Radishes were packed in with the remainder with 3. Beans did practically no packing, however, with 22 of the 40 cars reported going out of the Belle Glade depot. South Bay and Canal Point with 2 each up the list to 8 cars. Turnips were the last car, the bunch was day 8 with 4 outgoing cars. Only 1 car was shipped on Sunday.

Prices for the produce shipped out above follow: Beans, 1 cent per bean; turnips, \$1.00-\$1.50; radishes, \$1.50-\$2.50; cabbage, \$1.50-\$2.50; carrots, 45¢ per cwt. for fresh greens while celeries add \$1.25-\$1.50 per crate for 50¢ extra.

In the excessive dry conditions of the upper Florida Everglades winter vegetable area is relieved by rain or irrigation.

Growers in this section appear to be doing well, however, crop losses have been so small that crops are in prospect being damaged and the outlook for the spring crop is definitely unfavorable.

South Florida Conservancy District drainage ditches at South Bay, Lake Harbor, Chosen and Bare Beach are siphoning water into the drainage ditch from the New River, the St. Lucie, the New River and Hillsborough canals. These lands and such of the vegetable growing lands as have been mole drained are most easily benefited by this means as the water rapidly moves the entire tract through the moles.

The water at the lower end of the district at the Flamingo pump just above Six-Mile Bridge has been up 14 inches since the start of the rains and has filled all the ditches for irrigation purposes.

The South Shore Drainage district pump, which serves the lake shore area between South Bay and Bare Harbor, was started this week to fill the ditches for irrigation purposes.

Bob Creech and A. O. Ammons, who serve as directors of this district, investigated the possibility of dredging the canal to the North New River canal as is being done for the farmers on the east bank of that canal by the Atlantic Dredging Company. Fred A. McDaniel, contractor, advised them it would be necessary for him to arrange such a plan.

The educational efforts of the Limerock Association will be carried on throughout the year, Mr. Thrasher said. The most important part of the program is the news advertising campaign which will appear in nearly 100 daily and weekly newspapers in Florida.

"Through newspapers we can reach every citizen of Florida who works in agriculture and in general.

Every forward-looking Floridian should be eager to place the expenditure of tax-dollars for highways on the most economical and most efficient basis. We want all such citizens to know of the economy advantages of Limerock," Mr. Thrasher explained.

OFFICIALS VISIT
The district superintendent of the Postal Telegraph of Jacksonville, C. W. R. Wheeler, and of Jacksonville, R. P. Johnson, president of the American Communications Association, affiliated with the C.I.O., representing telegraph employees, spent several hours in Belle Glade last week. They were enroute to Ft. Myers and concluded with Mr. Harris, manager of the local office.

HELD IN JAIL

Julian McDuffie, of Clewiston, was held in jail at Belle Glade the week following an alleged bombing attempt at Lake Harbor in which Ernest Waldrop was stabbed in the stomach. Deputy Sheriff John Kirk made the arrest and charged the defendant with assault with intent to kill. Waldrop is in Everglades Memorial Hospital, the officer said.

Scout Drive Opens Monday Morning

Plans have been completed for a Boy Scout fund raising drive to start in the Lake Okeechobee region Monday morning and continue until \$300 in cash has been raised. The money will be used in building the coming year. George Kingaley, of Canal Point, is general chairman of the drive and has had local committees in each town to take care of the work.

In Brookwood, John Dalton and Irene Wells assisted by others to be chosen by them, will do the soliciting.

In Belle Glade Jay Jameson, Lou Betman and Arthur Wells are the leaders.

The amount allotted to the Lake region is a very small percentage of the entire amount to be raised to carry on activities of the Gulfstream council during the coming year. Official of the council are

making a determined effort to raise \$3,000 for the year's work.
TO US THEY COME

To us they come,
These lads—alert, afame
With eagerness to live
The Scouting life.
Ours is the chance to give.
To us they look,
As comrade and friend.
From us they seek to gain
Goals and hopes.
They must not seek in vain.
To us they give,
In love and faith secure
Their youth, heart and soul;
And ask of us

That we but point the goal.
GOD grant that we,
Given this human clay
To shape and mould our might,
May have the power
To guide our hands aright.
To so perform our task
That when we turn away,
No ill-formed thought
Remains of this our clay.
GOD grant us souls,
This wondrous task to fire.
That from our hearts pour out
That which will make
This boy, a true Scout.
Robert E. Wilkinson

Fred H. Schwenn, a Spanish War Veteran, living at St. Cloud reports growing sweet potato as large as 36 pounds each. Seed from these potatoes come from India.

THE Everlasting ROAD MATERIAL

LIMEROCK

**How To Reduce Future Taxes**

With future taxes promising to reach forbidding heights, here's one way to reduce the tax-burden for yourself and your children in years to come... insist that all new roads built in your part of the state have a Limerock-base. ★ As a road base material Limerock is Florida's great tax-saver because it is everlasting.

The cost of Limerock-base highways is lower than that of any other so-called permanent-type pavement ... far lower, in the long run, than temporary hard-surfacing, because there is no costly replacement problem every few years. ★ No properly-laid Limerock-base road in Florida has ever required replacement. When the all-weather, non-porous surface wears out after many years of use it is simple and very inexpensive to apply a new surface. It takes fewer tax-dollars to maintain Limerock-base roads in perfect condition. ★ Only Limerock offers true, long-range economy in road-building. A Limerock base is the life of a good highway... everlasting, resilient, indestructible. Limerock-base roads are unsurpassed for smooth riding-comfort. Inlays on Limerock-base highways and reduce your future taxes.

This is for the 60-h.p. Tudor Sedan. Illustrated and described under the heading "Tudor".
Bumpers and four bumper guards. Spare wheel, tire and jack. Two air-electric horns. Dual windshield wipers. Sun visor. Front and rear fenders. Head lamps with indicator on instrument panel.

of Florida, Inc. Ocala, FLORIDA

Road 29 Surfaced On West Side Lake

The surfacing of the first section of Road 29 from Wize's Corner to Lakeport was completed last Friday and part of the equipment of Eberhard Construction Company, contractors on the project, left over the weekend for a new project. A portion of the crew will remain, however, for at least thirty days for maintenance of the project before it is taken over by the state.

Very little change was made in the grade at any point, most of the preliminary work being the clearing of ditches, building of new ditches, etc., in low places to place the road to a uniform grade. Several new pipe culverts were placed, one concrete cattle guard at the Shackleford Ranch place, and two bridges across the opening to government culvert No. 5A near the north side of Nicodemus Slough. Base material used was native marl which was secured from borrow pits established by the county at easily accessible points near the highway.

H. E. Lewis, project engineer for the state, estimates that he and his engineering crew will be able to keep the project open to supervise work on shoulders and ditches and offer other things preparatory to final acceptance by the state.—Moore Haven Democrat.

And what will be the outcome of the bill concerning farm relief? When all is said and done, if still takes money to lift the mortgage on the old farmstead.

New Church Opens Sunday, March 12

The new building to be occupied by the Canal Point Baptist will be used for church services for the first time on Sunday, March 12, according to an announcement made this week by the pastor, Rev. S. B. Jordan. A cordial invitation is extended by the par-

tor and the congregation to the public to attend the opening day services.

Building of the new church was started several months ago and several obstacles have been overcome since the congregation began the building to the place where it can be used for services. Though not completed, officers of the church are hopeful that finishing touches can be added ere the passing of many months. For the past ten months the congregation

has labored diligently to erect this new home in Canal Point.

Rev. Jordan stated this week that a special program benefitting the occasion is being arranged by a special committee. Special music will be rendered along with the specially planned program for the day, it was pointed out by Rev. Jordan.

SOCIAL and PERSONAL ITEMS Pahokee and Canal Point

James Tiverton, Ottawa, Canada, has arrived here for a visit of several weeks with his son and daughter-in-law, Mr. and Mrs. Joe Taverna.

Mr. and Mrs. W. G. Hull and family are spending the week in town.

Mrs. Helen Denham entertained a group of children recently with a Valentine party, honoring her son, Billy, on his eighth birthday. Outdoor games were played. Mrs. Denham was assisted by Mrs. Dato and Mrs. Lorraine Hatcher.

Guests were Mary Morey, Ann Taylor, Joyce Stickland, Fay Cranford, Billy Kendrick, Audrey Crampton, Roger Connell, Houston Connell, Robert Johnson, Billy Troy, Ruth and Claudine Hatchett, Roxie Goodman, Billy Glade, Gordon Hatcher and Billy Denham.

A yearly budget of \$315 was adopted by the P.T.A. at its regular meeting Monday afternoon. Mrs. L. L. Shurtleff, president, in charge. The Young Women's club

voted to assume \$45 of this amount for the operation of its school, Mrs. J. E. Cochran, sr., and Mrs. Frank Roselle tendered their resignations as treasurer and recording secretary, and Mrs. Roselle was elected treasurer and Mrs. Glade, secy.

Mrs. McGowen of Tampa is at the Everglades Memorial Hospital recuperating from injuries received when the transport truck he was driving overturned near Cardwell Monday.

CANAL POINT P.T.A. MEETS

The Canal Point Parent Teacher Association held its regular monthly meeting last Monday night in the school auditorium, with Mrs. O. D. Taylor, president, presiding. A total of 100 parents and 15 young committee members attended. Guests were Anna Lee Herren, Erma Justice, Gloria John Dunbar, Beatrice Herren, Lois Byrd, Jane Creel, Ruth Wrgen, Irene Verhulst, Iris Howell, Dorothy Clegg, Blanche Short and Lucy Padgett.

The Pahokee fire department was called out early Saturday morning to fight a fire on the Florida East Coast highway in which a small building had completely burned. Equipment of the Everglades Fire Control District was also used in fighting the blaze, which for a while threatened the adjacent homes.

Chief E. J. Sanders said the cause of the fire was unknown. Damage was estimated at a few hundred dollars.

Dr. G. B. Sartoris of Washington, D. C. is ill at the Everglades Memorial Hospital. Dr. Sartoris

MADE TO SELL UP TO \$25.00

If you're still toying with the idea of buying your 1939 sport suit...you've got another opportunity like this. Imported and domestic manufacturers have offered to sell you a group of suits to tie the year up. The imported suits cost less than half price—\$22.50, \$24.50 to \$26.50. The domestic suits cost \$15.00, \$16.50, \$18.50, \$20.00. The second suit costs one dollar—just ONE DOLLAR!! Never before has it been able to offer a group of suits to tie the year up. The imported suits are made in various sizes. We don't claim to be "miracle-makers". There is a good sound reason for this sale. A fixed policy—never to carry over merchandise from one season to the next...brings you these unique opportunities at sensational values!!

Don't forget the address in West Palm Beach... Home owned and managed... and has no connection with any other store in the Palm Beaches.

Kendrick Speaks Before P-T-A Group Belle Glade Mon.

Points Out To Parents Difference In Agricultural Study

W. H. Kendrick, vocational agricultural teacher at the Pahokee High School, was guest speaker before members of the Belle Glade P.T.A. at its regular meeting at the Belle Glade school auditorium.

Mr. Kendrick pointed out the difference between studying agriculture and vocational agriculture, stressing that the latter course, an elective one, aims to give the boy or girl a satisfactory established occupation in life.

As the meeting was known as "Founder's Day and Father's Night", Mrs. Thomas Bregger, retiring president of the P.T.A., gave a brief history of the founding of the first P.T.A. by Mrs. Alice Burney. She also welcomed all fathers present at the meeting.

L. W. Bartlett, principal of the local school, summarized a report on community needs published by the State Health Department officials and emphasizing the importance and prevention and spread of colds in the school and in industry.

During the business meeting Mrs. Bregger gave an interesting report on the recent meeting of the P.T.A. County Council. She also announced that the P.T.A. was making a contribution to the welfare program, under the direction of Mrs. J. W. Strickland, program chairman, presented Mrs. W. J. Jensen, who talked on the history of the P.T.A. and the organization.

This report proved to be very interesting. Judge John L. Moore, of West Palm Beach, was introduced by J. B. Cox, Judge Moore spoke on the importance of the home in the rearing of boys and girls. His remarks proved to be very worthwhile. Judge Moore stated that the home should be more than a place to sleep in, a place to live in, in order to call a place home it is necessary to live in that place a great amount of time.

After the meeting, members of the P.T.A. celebrated Founder's Day and Father's Night with a coffee social sponsored by Medemans D. L. Hooks, Harry Sears and Bertie Smith to approximately forty members.

Post Laundries reports that more than one new residence was built for each day of 1938, and the total expenditure of more than \$8,000,000 for residential and commercial buildings, port development, roads, county and other construction, for last year.

The convention of the State Federation of Labor, which will be held in Miami on March 6 to 9, will undoubtedly be the largest ever arranged, according to Leo H. Hill, president of the Central Labor Union of that city.

CARD OF THANKS

We desire to thank our many friends for the comforting words and acts of kindness during the sudden death of our loved one. We are sincerely appreciative of everything that you have done to lighten our burden in our time of extreme sorrow.

Mrs. Georgia Lovett,
Miss Henryta Lovett
Mrs. C. S. Lovett and Family
Mrs. Ethel Bell Stevens
and Family.

BELLE GLADE SOCIETY AND PERSONALS

The Y.W.A. conducted a regular business session Wednesday at the Lorraine Armstrong Beauty Shop. Refreshments were served by Sally Lloyd, Mrs. Kirk, Carolyn Whitfield, Sally Steele, Ida Howington, Lorraine Armstrong and Mrs. Beulah Myers.

Mrs. J. W. Rashley was honored at a handkerchief shower by the W.M.F. of the First Baptist Church. Refreshments were served by Sally Lloyd, Mrs. Alice Burney. She also welcomed all fathers present at the meeting.

L. W. Bartlett, principal of the local school, summarized a report on community needs published by the State Health Department officials and emphasizing the importance and prevention and spread of colds in the school and in industry.

During the business meeting Mrs. Bregger gave an interesting report on the recent meeting of the P.T.A. County Council. exercises of the Pahokee High School.

Mr. and Mrs. W. W. McCurdy, accompanied by John M. McCurdy of South Bay, have returned from Georgia where they were called by the death of Mr. McCurdy's mother. During their stay, parents showed Mrs. Norman McCurdy, wife of Mr. and Mrs. Willard, while Charles Milton and Willard were guests of their aunt and uncle, Mr. and Mrs. Roy McElroy of Lake Wales.

Mrs. R. E. Teller, who recently returned from an extended tour of California and Ohio and a visit with her sister at Atlee, Va., has gone to Miami for a few days to attend the Southern Intercollegiate.

Mrs. G. W. Lewis, of Lake Worth and Bradenton is visiting her daughter, Mrs. W. C. Cunningham and family.

A trip to the sugar house at Clewiston was made by the sixth, seventh, eighth and ninth grades on Thursday.

Mr. and Mrs. Jay Smith, Mr. and Mrs. Paul Smith and Zack Mathis spent the day fishing and camping at Liberty Point Sunday.

C. C. Cook and son, James, of Belle Glade, visited his daughter, Miss Nellie Cook, the last of the week. Mr. and Mrs. John M. McCurdy, wife of Mr. and Mrs. Willard, while Charles Milton and Willard were guests of their aunt and uncle, Mr. and Mrs. Roy McElroy of Lake Wales.

Hayden Williams, brother of George Williams, was taken to the Lake Worth hospital the last of the week suffering from an acute attack of appendicitis.

Mr. and Mrs. Ralph Freeman left Wednesday for Miami. Mrs. Dresser and son Richard, of Madison, Wis., are house guests of Mrs. Dresser's daughter and husband, Dr. and Mrs. Boyd.

"Where Quality Meets Economy"

CHEVROLETS

come to Florida by train!

CHEVROLET long ago abandoned the drive-away method of delivering automobiles to dealers. The drive-away car faces all the hazards of the highway, goes through the cities, "drives-in" period, in the mode of an unbroken line of drivers, and comes to you with part of the tire and engine mileage you pay for going forever. It is a used car in every sense of the word. Because Chevrolet believes you are entitled to a genuinely new car, Chevrolets are shipped, not driven, from factory to you.

Take any chance when you buy

your new low-priced car? Make it a Chevrolet and be sure of satisfaction. Chevrolet's higher quality and lower prices have made it the most popular car of the year—and, best of all, you can be absolutely sure that you get what you pay for, with the famous factory inspection. They leave the thorough-going inspection at the factory. So put your money in the safest method in the low-price field . . . the car you know is new and right . . . the car that America has placed first in sales because "Chevrolet's the Choice."

SEE YOUR LOCAL CHEVROLET DEALER
